NOTES15

1. ANIMALS

Pets and/or animals of any kind may not be on the premises unless prior written consent is obtained from the Management Office. Carlton Arms' pet policy requires that all pets weigh under 50 pounds at full maturity. Pet owners and their pets are subject to certain rules and regulations as specified in the pet addendum. Temporary and/or visiting pets are not allowed. We accept only dogs, cats, birds and fish. No exotic pets, rodents, reptiles, etc. allowed. Two animal limit per apartment. Breed restrictions apply.

Assistance animals are allowed after proper documentation is presented to Management to register the animal.

2. APARTMENT CARE

A. AIR CONDITIONING AND HEATING

- The fan should be set to the AUTO position for the most economical and even temperature results.
- Thermostat should be set on automatic and heat or cool, as desired.
- Do not block supply registers or return air grills.
- Do not place anything on or around the A/C condensing unit on the patio or balcony; allow 12" clearance all around the unit.
- When turning on the heater for the first time at the beginning of cooler weather, you may detect a burning odor. This is caused by the build-up of dust on the coils. This odor will dissipate after a short time.
- We recommend that the a/c filter be changed on a regular basis.

B. APPLIANCES

1. Dishwasher

ALWAYS scrape dishes before loading into the machine. Use only automatic dishwashing soap.

2. Garbage Disposal

- Disposals should be used for wet garbage only.
- Do not place bones, rinds, metals, or coffee grounds, etc. down the disposal.
- Do not overload the unit.
- Keep COLD water running before, during, and after the operation of the unit.
- Do not use a drain cleaner down the disposal.
- If the unit jams, turn the operating switch on and off several times in rapid succession.
- Should the disposal fail to start, press the RESET button located on the base of the disposal, under the sink.

3. Stove/Oven

- When cleaning the stove, do not use steel wool, abrasives, acids, or commercial oven cleaners on the metal, glass, or painted surfaces.
- Please use care when using your stove. Leaving a pot or pan unattended for even a very brief period of time can quickly result in a grease fire that can cause major damage.

C. BATHROOM FACILITIES

Clogged up drains and sewer back-ups can be prevented by carefully following the guidelines below:

- NEVER dispose of sanitary napkins, tampons or applicators, paper towels, diapers, Q-tips, chewing gum, cigarettes or cat litter, etc. in toilets.
- If the toilet does overflow, IMMEDIATELY turn off the water at the shut off valve located behind the fixture
- If unable to clear the clog with the use of a plunger, call the office for assistance.
- Help control unnecessary water loss by monitoring your plumbing fixtures for leaky faucets, faulty flappers and flush valves. If you notice a toilet running constantly or cycling on and off when not in use, please report it immediately so maintenance can make repairs.

D. CARPET CARE

Simple remedies and techniques for removing stains from carpeting include:

- Scrape, blot or absorb the excess immediately, using a spoon or the back of a knife for semi-solids or greasy substances. For liquids, blot with an absorbent cloth or paper towel.
- Prepare a solution of (3) parts lukewarm water to (1) part white vinegar and blot. Avoid excessive rubbing and wetting of the carpet.
- Do not place furniture on wet carpet.
- Do not place potted plants directly on the carpet without protection.
- To remove dirt and keep pile erect, carpets should be vacuumed routinely. High traffic areas may require more frequent vacuuming.
- Never use bleach or products containing bleach to clean your carpet. These products will cause permanent damage for which you will be held responsible.

E. COUNTERTOPS

To protect the surface of the countertop, please do not use it as a cutting board. Do not place hot pots or containers directly on the countertop, as it will permanently mar the surface. Do not use bleach on the countertops.

F. ELECTRICAL SYSTEMS

Circuit breakers are safety devices and should not be turned ON and OFF unless there is a problem. A circuit breaker controls each electrical circuit in your apartment. Should an appliance or lamp fail, unplug it from the electrical outlet. Check the breaker panel to determine whether a breaker switch has tripped to the OFF position. If so, flip the switch to the ON position. If this procedure does not restore the power or the breaker trips again, please call the office.

Light fixtures in your apartment have a maximum UL rating of 60 watts. When replacing bulbs, do not use bulbs that exceed the 60-watts.

G. FIRE EXTINGUISHERS

- Every apartment is to be supplied with a fire extinguisher.
- Immediately upon move-in, please make yourself familiar with the location, keeping it quickly accessible should it be needed in an emergency.
- Notify the office immediately, if your extinguisher is missing. To operate, pull out the locking pin, aim at the base of the flames, squeeze the handle and sweep from side to side until the flames have been extinguished.
- When moving out, leave the fire extinguisher in the apartment. Do not bring it to the office.

H. FLOORING: TILE, VINYL & PLANK

- With normal household use, floors may be washed with a solution of warm water and vinegar or a multi-surface cleaner and a sponge mop.
- Never use highly abrasive scrubbers or steel wool. Scuff marks can be removed using some WD-40 lubricant. Clean thoroughly with the vinegar and water solution to remove any traces of lubrication.
- Do not use detergents, abrasive cleaning or ammonia-based cleaning solutions or any harsh chemicals or waxes containing these solvents.
- Do not apply varnish, lacquer or shellac to the flooring.

I. APARTMENT EXTERIOR

- Personal security alarms or video doorbell systems are not to be installed outside the apartment home.
